DETAILED ACTION

Claims 1-9 are rejected below under 35 USC 112 and also include improper form.

Therefore, the claims have not been examined on the merits. An examination on the merits will follow upon receipt of a formal amendment correcting the noted improprieties.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the 6^{th} paragraph of 35 U.S.C. 112:

An element in a claim for a combination may be expressed as a means or step for performing a specified function without the recital of structure, material, or acts in support thereof, and such claim shall be construed to cover the corresponding structure, material, or acts described in the specification and equivalents thereof.

2. Claims 1-9 are rejected under 35 U.S.C. 112, 6th paragraph, as being being drawn to a step plus function claim which only includes a single step. In particular claim 1, is an improper method claim as it only recites a single step.

Claim Objections

3. Claim 9 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. In particular, claim 9, does not further limit the method of claim 1, but is instead drawn to a control unit.
